

RESEARCH ACTIVITY AT EXTERNAL ORGANISATIONS APPLICATION FORM

Use this form to apply to undertake a research activity at an external organisation.

Per the [Higher Degree by Research Scholarship Policy](#) and [Research Training Program Scholarship Policy](#), after the completion of the first six months of candidature, scholars may undertake approved periods of research activities (e.g. industry placement, research internships, professional practice) at other organisations for a maximum of 12 months' duration (unless a case for exceptional circumstances can be made).

If the research activity period is greater than 3 months in any one semester, and the activity is located outside a 50km radius of the UON campus responsible for your program of enrolment, you will also use this form to apply to enrol as an off-campus student.

Approval is required by your Principal Supervisor and the Assistant Dean Research Training. If you are also applying for off-campus enrolment approval is required by the Head of School Nominee.
